TECHNICAL SKILLS

Kotlin
Java
MVVM/MVC
Dependency Injections
REST Api Integration -Web Services
MVP
Room Database
Socket.io
Dagger2
Git
Jira
Android UI/UX
Lifecycle /Architecture
CI/CD Pipeline
Android SDK
Dagger2
AWS
C++ Programming
MySQL
Back end Integration
HTML/CSS
ReactJS
ios Development
Javascript
Agile Methodology

PROFILE

Experienced Software Developer with 5+ years of expertise in Java and Kotlin. Proficient in MVVM architecture, coroutines, Room, Realm, Dagger, and Hilt for dependency injection. Skilled in RxJava for asynchronous programming and UI/UX design. Strong commitment to unit testing and effective cross-functional team collaboration. Bachelor's in Computer Science and pursuing a Postgraduate Diploma in Mobile Development at Fanshawe College. Versatile skills include React.js, React Native, iOS, and web development. Committed to delivering excellence in Software engineering

WORK EXPERIENCE

Lead Android Developer

Erasoft Technology 10/2021–02/2023

- Utilized Java and Kotlin to architect and develop innovative Android applications with a 4.5+ star rating on the Google Play Store. Successfully Publishing many apps on the Google Play Store.
- Employed advanced object-oriented design principles to optimize codebase maintainability and reduce bug count by 15% over the course of the project.
- Leveraged Dependency Injection frameworks like Dagger2 to streamline the codebase and decrease initialization times.
- Mentored junior developers in reactive programming and coroutines concepts, improving code quality and reducing error rates by 10%.

Android Application Developer

JKSQL Infotech 02/2018–10/2021

- Build 25+ High quality and best User experience and Continuous improvement applications, with continues integration and deployment.
- Utilized Room Database to optimize data storage and retrieval, reducing query times and ensuring data consistency.
- Collaborate with the iOS development team to ensure cross-platform compatibility and feature parity, resulting in a seamless Users Requirements.
- Introduced Kotlin Coroutines features and Android Jetpack Architecture to existing Net projects, resulting in a 50% performance boost that led to a quadrupling of the Google Play Store rating.
- Integrated RESTful APIs for Video Streaming apps, implemented Access management, enhanced RBAC policies, and achieved a 20% improvement in page load time.
- Managed tasks within cleared sprinted tasks and controlled basecamp workflows.

Analytical skills

EDUCATION

Post-Graduation in Mobile Development
Program(Pursuing)

Fanshawe College, London, ON

Present

- GPA - 4.0

B-Tech in Computer Engineering

**Gujarat Technological
University, India**

2014 -2018

LANGUAGES

English

Gujarati

WORK EXPERIENCE

Software development Internship

SourceCode Institute

08/2017-01/2018

- As training internship intern, actively research contributed to the development of 2 key applications, gaining technical experience in application design and development according to Customer experience .
- Collaborated with senior did coding to integrate Dagger2 for dependency injection, enhancing code maintainability and performance and learn Hardware needs.
- Demonstrated proficiency in MS Office applications for documentation Specifications and reporting, aiding in project documentation and communication efforts.
- Writing elegant, flexible, OS compatible self-documenting code that was easy for fellow developers to read and adapt, improving collaboration and reducing development time by 20% and make sure for Quality assurance.

Certifications

- Agile Development Practices, [LinkedIn](#)
- ReactJS Developer, [Brilliant Computer Education](#)
